

Danlamp – incandescent lamps in unique quality

danlamp®

Passionate about lighting

Danlamp is Denmark's only manufacturer of incandescent light bulbs and has been a leader in the development of lamps since 1931. We supply individual, decorative lighting to the business community and churches as well as highly specialised lamps for navigation and traffic lights. We also provide consulting on lighting solutions. With Danlamp, you will find high quality and all the competencies you are looking for in one place.

PURE RADIANCE AND GENUINE KNOWLEDGE

Our factory in Aabenraa, Denmark, manufactures light bulbs in high quality and to suit all conditions. As a unique service, we also offer tailored solutions in small, medium-sized and large-scale productions. In addition, Danlamp conducts comprehensive quality assurance testing of incandescent bulbs to ensure that our bulbs have the expected luminosity, brightness and quality. Danlamp possesses unique expertise within incandescent lighting technology and offers consulting on materials selection, energy consumption, packaging and logistics solutions.

HISTORICAL BRIGHT SPOTS

Danlamp has developed and introduced an entire series of classic incandescent bulbs. The SM lamp has been a recognised and respected international brand for years because of its unique quality and durability. Another classic from Danlamp is the electric church candle, which lights up most of the Nordic national churches.

»
Søren Madsen invented the electric church candle and the low-voltage traffic light, as well as lending his name to the SM lamp.

DECORATIVE LIGHTING IN THE SPOTLIGHT

Danlamp is a market leader in the development of incandescent bulbs – especially in the growing market for decorative lamps. Danlamp regularly develops new designs and has collaborated with recognised designers from Holmegaard and Malene Birger, among others. Danlamp custom designs bulbs for special needs and for lighting in specific spaces.

LARGE-SCALE SUPPLIER OF BULBS TO THE SHIPPING INDUSTRY

For 20 years, Danlamp has collaborated with SPC Marine, which supplies lighting to shipyards throughout the Nordic region.

"Danlamp is SPC Marine's preferred supplier of lantern bulbs. Danlamp's robust bulbs are of the highest quality, and that is extremely important at sea. We have therefore used Danlamp bulbs on more than 100 ships from Odense Steel Shipyard."

Jacob Molberg, Managing Director, SPC Marine

A BRIGHT SPOT IN EUROPE

Many lighting manufacturers in Europe have been forced to close or discontinue production in recent years. Today, Danlamp is one of the few remaining guarantors of the European tradition for design and quality craftsmanship within the production of incandescent light bulbs. Danlamp offers its customers close collaboration and a unique cultural understanding, which can be crucial to the process of developing custom lighting solutions that are unique, integrated and sustainable.
